Skills

- **Technical Skills:** HTML5, CSS, Git, JavaScript, Bootstrap, Tailwind CSS, React, Next.js, Chakra UI, Node.js, Express.js, MongoDB
- **Soft Skills:** Teamwork, Problem Solving, Time Management, Critical Thinking

Projects

[Walmart Clone](#)

[github](#)

- Developed a Walmart clone website within a tight timeframe of 5 days, leveraging React.js, Tailwind CSS, Chakra UI, and React Router for frontend development.
- Ensured a seamless user experience by implementing a responsive design that adapts well to various devices and browsers, enhancing accessibility and usability.
- Integrated frontend components with server-side APIs to fetch and display product data, optimizing the website for speed, performance, and scalability. Conducted rigorous testing and debugging to ensure the application's reliability and stability.

[Movie Search App](#)

[github](#)

- Developed a Movie Search Application using React, Chakra UI, Tailwind CSS, and React Router, incorporating advanced search functionality to retrieve movie information based on user queries.
- Implemented private routes for secured user access, along with login and logout functionality, enhancing user experience and ensuring data privacy and security in the application.

[Envoy clone](#)

[github](#)

- Contributed to Envoy's visitor management system by implementing key features such as sliders, login/signup functionality, and customized styling using HTML5, CSS3, JavaScript, and Git. Completed the project within a challenging timeline of 10 days.
- Used HTML for structure, CSS for style, and JavaScript for interactivity, making the project more flexible and user-friendly.

Certifications

[HTML](#), [CSS](#), [JavaScript](#), [React and Redux](#)
