# Suraj Yadav

## Frontend Developer

### PROFESSIONAL SUMMARY

A versatile Front End Developer intern, proficient in HTML, CSS, and JavaScript, with a keen understanding of dynamic web development. Demonstrates competence in collaborative settings, showcasing expertise in Tailwind CSS and Bootstrap for creating visually appealing and impactful user experiences. Adaptability and a rapid grasp of emerging technologies are distinguishing attributes.

### PROJECTS

#### 1. Movie Search Bar Using OMDB API | |

HTML | CSS | Git | JavaScript

- Crafted an engaging Movie Search Bar with user-friendly navigation and interactive elements using *HTML*, *CSS*, and *JavaScript*.
- Ensured seamless viewing across various devices, providing an optimal experience on desktops, tablets, and smartphones.
- Incorporated sleek animations and visually appealing elements to captivate users and highlight superhero skills and achievements.

#### 2. Masai Calculator | |

CSS | HTML | JavaScript | Git

- Developed a calculator application using *HTML*, *CSS*, and *JavaScript*.
- Implemented core functionality such as addition, subtraction, multiplication, and division.
- Ensured a responsive design and smooth user experience.

#### 3. Envoy clone | |

HTML | CSS | JavaScript | Git

- Contributed to Envoy, enhancing visitor management with features like sliders, login/signup, and styling using *HTML5*, *CSS3*, *JavaScript*, and *GIT*.
- Integrated secure user authentication with smooth login and sign-up processes.
- Applied custom styling to improve the overall aesthetic appeal and user interface of the Envoy software.
